💼 PROFESSIONAL EXPERIENCE

publicis sapient
Associate L2
08/2021 – present | banaglore, india
The Container store custom closet:-

- Developed an interactive layout, using HTML5, SASS/SCSS/CSS, JavaScript (ES2015+), Typescript and React.js to generate an improved user experience and ensure compliance with web standards, accessibility, high-quality design and cross-browser compatibility.
- Worked collaboratively with Git and other team members including art directors, motion and 3D artists, web developers, creative technologists, project managers and strategists to continually expand application capabilities.
- Conducting code reviews, reviewing pull requests, troubleshooting, and optimising the performance of existing product features to continuously improve the user experience and security.
- Implemented, maintained and developed unit testing, end-to-end (e2e) testing ,automated software testing processes to ensure/improve quality assurance.
- Collaborated with UX/UI designers, backend developers, and product managers to create/ensure seamless integration of REST APIs backend services with frontend functionalities, user experiences, implement creative ideas and visions for the frontend.
- Developed and maintained technical documentation for the frontend codebase, resulting in reduction in onboarding times for new developers.
- Worked with Agile development methodologies and continuously improved the team's work.
- Created reusable code libraries supporting Storybook, reducing development time for future projects and improving the efficiency of the development team.
- Used modern build tools and deployment processes, such as Webpack..

capgemini
